

DEBORAH UDOCHUKWU AMAJUOYI

Senior Product Manager

Germany (Relocating to Canada) | deborahprecious48@gmail.com | +49 151 2498 2621 | amajuoyideborah.com | linkedin.com/in/amajuoyi-udochukwu-deborah-2b4b331a2

PROFESSIONAL SUMMARY

Senior Product Manager with a product design background and experience across B2B, B2C, D2C and platform products. Has spent more than four years building digital products for Volkswagen Group that serve four brands: Volkswagen, Škoda, SEAT and CUPRA. Takes unclear briefs through research, scoping and delivery, and can open Figma or build a working prototype with AI tools when an idea needs testing. Led the move of all four brands to a new design system version, brought them in line with EU accessibility standards, and kept the team on board throughout.

CORE SKILLS

- **Product Strategy & Delivery:** Product Lifecycle Management, Roadmap Prioritization, Opportunity Framing, Go to Market Strategy, MVP Definition, Agile and Scrum.
- **Research & Metrics:** Qualitative and Quantitative Research, Usability Testing, Conversion and Retention, Data Informed Decision Making.
- **Leadership & Communication:** Executive Storytelling, Engineering Alignment, Technical Tradeoffs, Stakeholder Management, Workshop Facilitation.
- **Design & Technical Skills:** Systems Thinking, UX and UI Design, Design Systems, Accessibility (EU Standards), Prototyping in Figma.
- **AI Skills:** Generative AI Workflows, Model Context Protocol (MCP) Integrations, LLM APIs, Building with AI Coding Tools.
- **Tools:** Jira, Confluence, Figma, FigJam, Framer, Miro, Cursor, Claude Code, Claude, OpenAI API, GitHub, Adobe Creative Cloud.

PROFESSIONAL EXPERIENCE

CARIAD (Volkswagen Group Company) | Senior Product Manager *(Germany | Sept 2025 to Present)*

- Lead product strategy, prioritization and delivery for connected vehicle digital experiences, including enrollment and onboarding, across Volkswagen, Škoda, SEAT and CUPRA, four brands that together delivered more than 6 million vehicles in 2025.
- **Roadmap Ownership:** Take digital initiatives from discovery to release across the four brands, keeping MVP scope tight so teams can ship sooner.
- **Engineering and Leadership Alignment:** Work with engineering leads and executive stakeholders to balance technical constraints against business priorities and agree where distributed teams focus.
- **Discovery:** Turn user research and platform analytics into clear product requirements when the starting brief is vague.
- **AI Enablement:** Run AI workshops and tool rollouts inside CARIAD, using Claude Code, Cursor and Figma plugins to bring AI into everyday product and design work.

Senior Product Designer *(Sept 2023 to Sept 2025)*

- Led experience strategy, interaction patterns and the shared design system for Volkswagen Group automotive software.
- **Design System Migration:** Migrated all four brands to Design System 6 and standardized core components, giving designers and engineers one consistent foundation to build from.
- **Accessibility:** Carried out accessibility work across the four brands to meet EU accessibility standards, guiding my team through both the migration and the new requirements.

- **Working with Engineering:** Led discovery sessions and set usability testing protocols that reduced developer rework.
- **Prototyping:** Built detailed Figma prototypes and designed flows for primary and guest users within the shared design system.

HEXAD GMBH (for Volkswagen Group) | Lead Product Designer / Product Lead *(Germany | Mar 2022 to Aug 2023)*

- Led product design and feature delivery for Volkswagen Group mobility software across Volkswagen, Škoda, CUPRA and SEAT.
- **Discovery and MVP Framing:** Ran user interviews and workflow analysis to find where users got stuck, shaping opportunities that increased feature adoption.
- **Agile Delivery:** Worked with Product Owners to map user journeys and test detailed prototypes in quick usability rounds.

FLUIDANGLE | Lead Product Manager & Product Designer *(California, United States | Jan 2018 to Jan 2022)*

- Owned B2B and B2C software products for small and medium businesses from concept through launch.
- **Product Growth:** Managed the full product lifecycle and launched products that improved user retention and grew adoption across regional markets.
- **Simplifying Workflows:** Turned complex legal and administrative requirements into clear product backlogs, shortening the time users needed to complete key tasks.

SELECTED PROJECTS

- **Apple Notes Transcriber (open source):** Built a fix for a gap in Apple Notes, which cannot import and transcribe an existing audio file: a Swift command line tool, made with Cursor, that sends audio to the OpenAI Whisper API and saves the transcript in Apple Notes. [View on GitHub](#)
- **MCP Integrations:** Connected Cursor to Framer and GitHub through Model Context Protocol (MCP), so the AI assistant works directly with design and code tools.
- **AI Evaluation Review:** Testing LLM evaluation platforms, including Braintrust, with a sample onboarding assistant dataset to see how usable AI evals are for product teams.
- **Reversal (published case study):** Product case study on an autonomous home robot, covering market sizing, memory architecture, a phased go to market plan, risks and success metrics.

MENTORSHIP, TEACHING & COMMUNITY

- **AI and Design Workshop:** Led a live workshop on AI and design attended by more than 150 people.
- **Global Mentor | ADPList:** Mentor product and design professionals around the world on product strategy, career growth and explaining product decisions.
- **Design School Instructor | Utiva:** Taught and assessed student cohorts in product design, information architecture and execution.
- **Team Lead Mentor | WomenTech Inspire:** Guided a cohort of mentors from different disciplines and supported the community's growth.
- **Community Leader | IxDA Lagos:** Led international knowledge exchange initiatives and spoke on design thinking at World Interaction Design Day.

EDUCATION & CERTIFICATIONS

- **M.Sc. Information Technology |** American Intercontinental University
- **B.A. Purchasing and Supply |** Federal Polytechnic Nekede Owerri
- **Certifications:** Product Design and Product Masterclasses, Product School
- **Awards:** Peer Reviewer (IxD 24 Awards), Staff of the Year (Fluidangle)
